

Stop the madness

Sign the petition—no more manual cell counting

Now that there are 2 cell counters that have a reusable slide, “too expensive” is no longer a valid excuse to not purchase an automated counter. Why should we continue to count cells manually when an automated cell counter is more accurate and saves time?

Sign the petition below to show your support for saving time and having our lab purchase an affordable Invitrogen™ Countess™ 3 or Countess™ 3 FL Automated Cell Counter with a reusable slide.
