产品中有害物质的名称及含量  
China EEP Hazardous Substances Information

| 部件名称<br>Component Name                                    | 有害物质<br>Hazardous Substances |           |           |                 |               |                 |
|---|------------------------------|-----------|-----------|-----------------|---------------|-----------------|
|   | 铅<br>(Pb)                    | 汞<br>(Hg) | 镉<br>(Cd) | 六价铬<br>(Cr(VI)) | 多溴联苯<br>(PBB) | 多溴二苯醚<br>(PBDE) |
| (柜子) Cabinet  | 0                            | 0         | 0         | 0               | 0             | 0               |
| (线缆) Cabling  | 0                            | 0         | 0         | 0               | 0             | 0               |
| (真空和气体系统) Vacuum and gas system (pumps, valves and pipes) | X                            | 0         | 0         | 0               | 0             | 0               |
| (火花台) Spark Stand   | 0                            | 0         | 0         | 0               | 0             | 0               |
| Spectrometer (分光仪)  | 0                            | 0         | 0         | 0               | 0             | 0               |
| (印刷线路板组件) PCBAs   | X                            | 0         | 0         | 0               | 0             | 0               |

本表格依据SJ/T11364的规定编制 This table is compiled according to SJ/T 11364 standard.

O: 表示该有害物质在该部件所有均质材料中的含量均在GB/T26572规定的限量要求以下.  
Indcates that the concentration of the hazardous substance in all homogeneous materials for the part is below the relevant threshold of the GB/T 26572 standard.

X: 表示该有害物质至少在该部件的某一均质材料中的含量超出GB/T26572规定的限量要.
