

B2B Process

Mark Graham

Updated June 2021

 The world leader in serving science

Key digital areas that make up Thermo Fisher Scientific eCommerce

1. eProcurement

a) B2C

b) B2B

2. Supply Centers

3. Services marketplace

4. Inventory Manager by Unity Lab Services (ULS)

What is B2B?

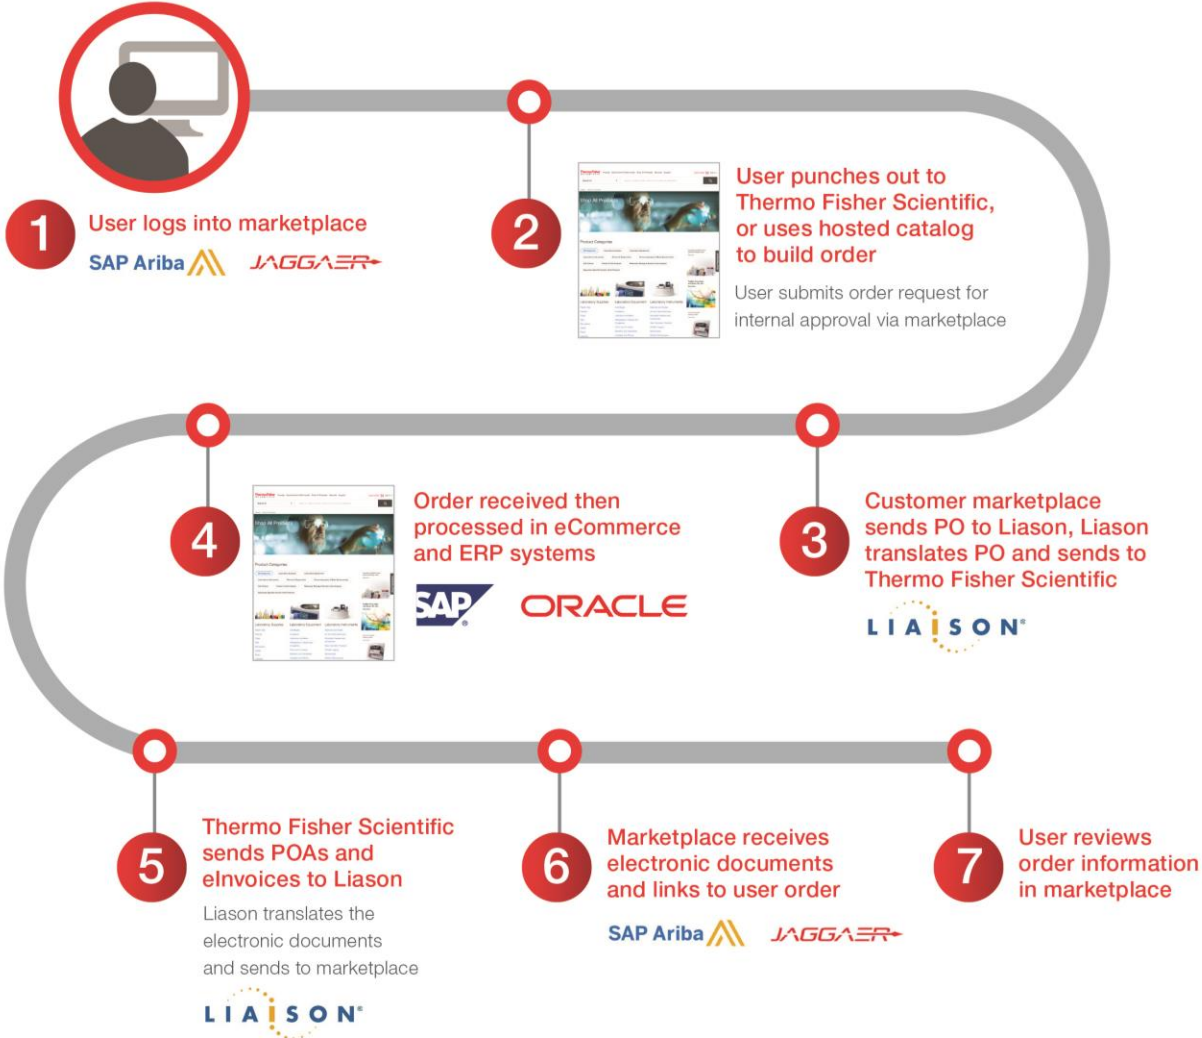

- B2B: Business-to-Business, an electronic commerce transaction
- Direct connection between procurement systems to provide a seamless transaction process
- Can automate procure-to-pay cycle with account specific pricing
- Provides access to research content, complete product information and product selection tools

Integrates with **many marketplaces:**

B2B: The Buying Process

Speed | Simplicity | Transparency

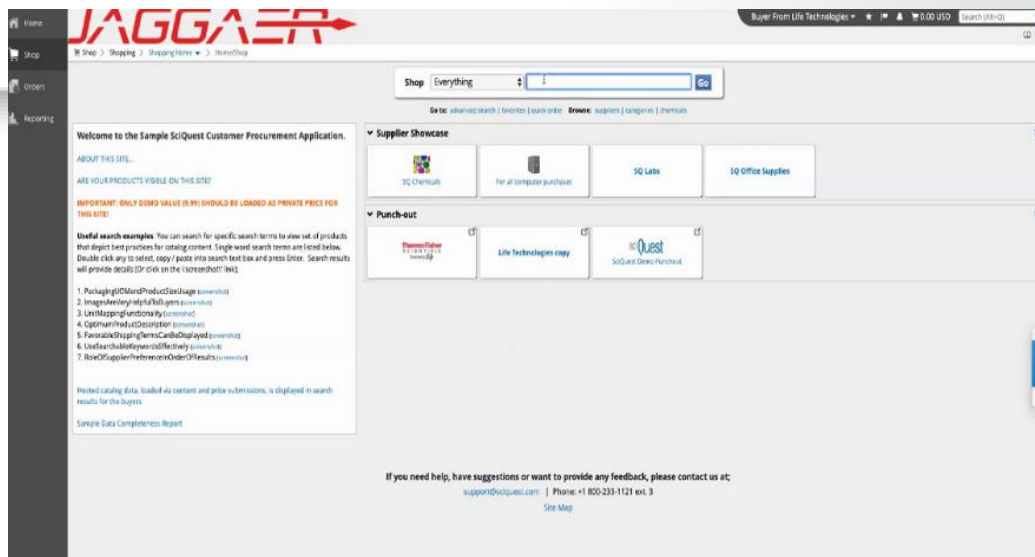

B2B: Two ways for customers to find our products

Punchout

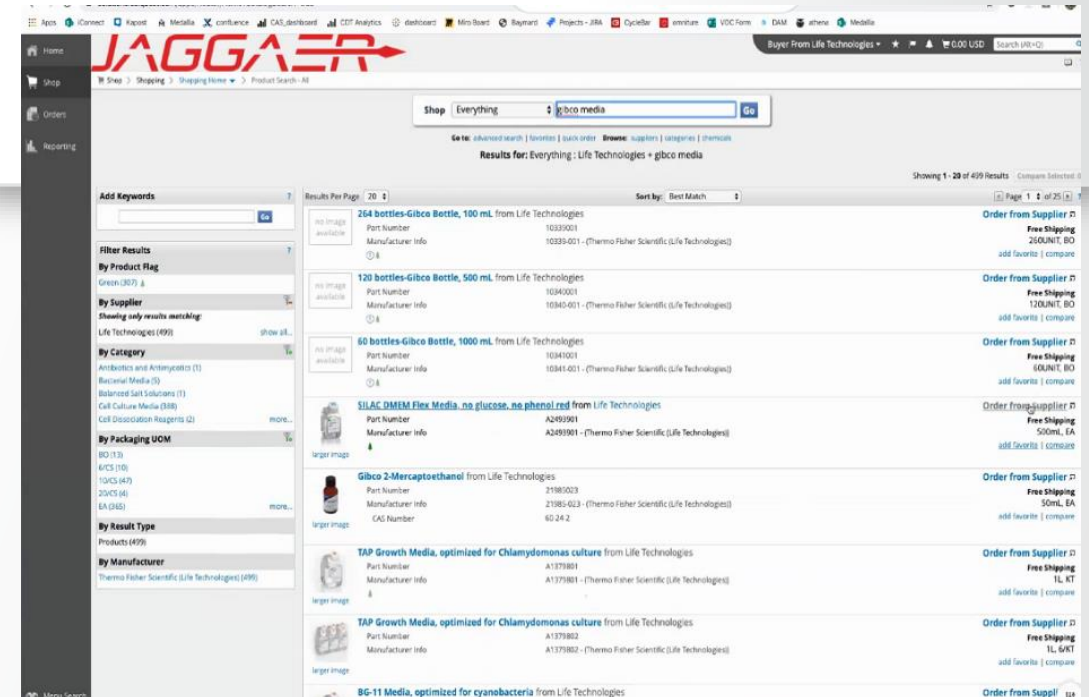

Allows a user direct access to the supplier's web site and product catalog from within the customer's own eProcurement application.

- There are punchout variations that can include:
 - Level II punchout (punchout + hosted catalog)
 - Supply Center Management System punchout

Hosted catalog

A formatted file containing a list of products with customer-specific pricing that is maintained by Thermo Fisher.

B2B: Speeding Up The Buying Process

↓ Manual Order

↓ ↑ Thermofisher.com
B2C

↓ ↑ Punchout/
Hosted B2B

Benefits for product manager and customer

- **Streamlined process** – Self-service tools for the customer means less pricing discrepancies. Plus real-time customized pricing and availability information combined with the ability to redeem quotes makes product ordering faster
- **Shopping tools** – Tied to the customer's procurement system, our online research tools, selection guides and product guides ensure the customer has the right product available 24/7
- **Traceability** – Saved carts, POs, shipment notifications as well as order history, and more
- **Compliance** – Product catalogs customize the buying process to help ensure scientists have more time to focus on their work

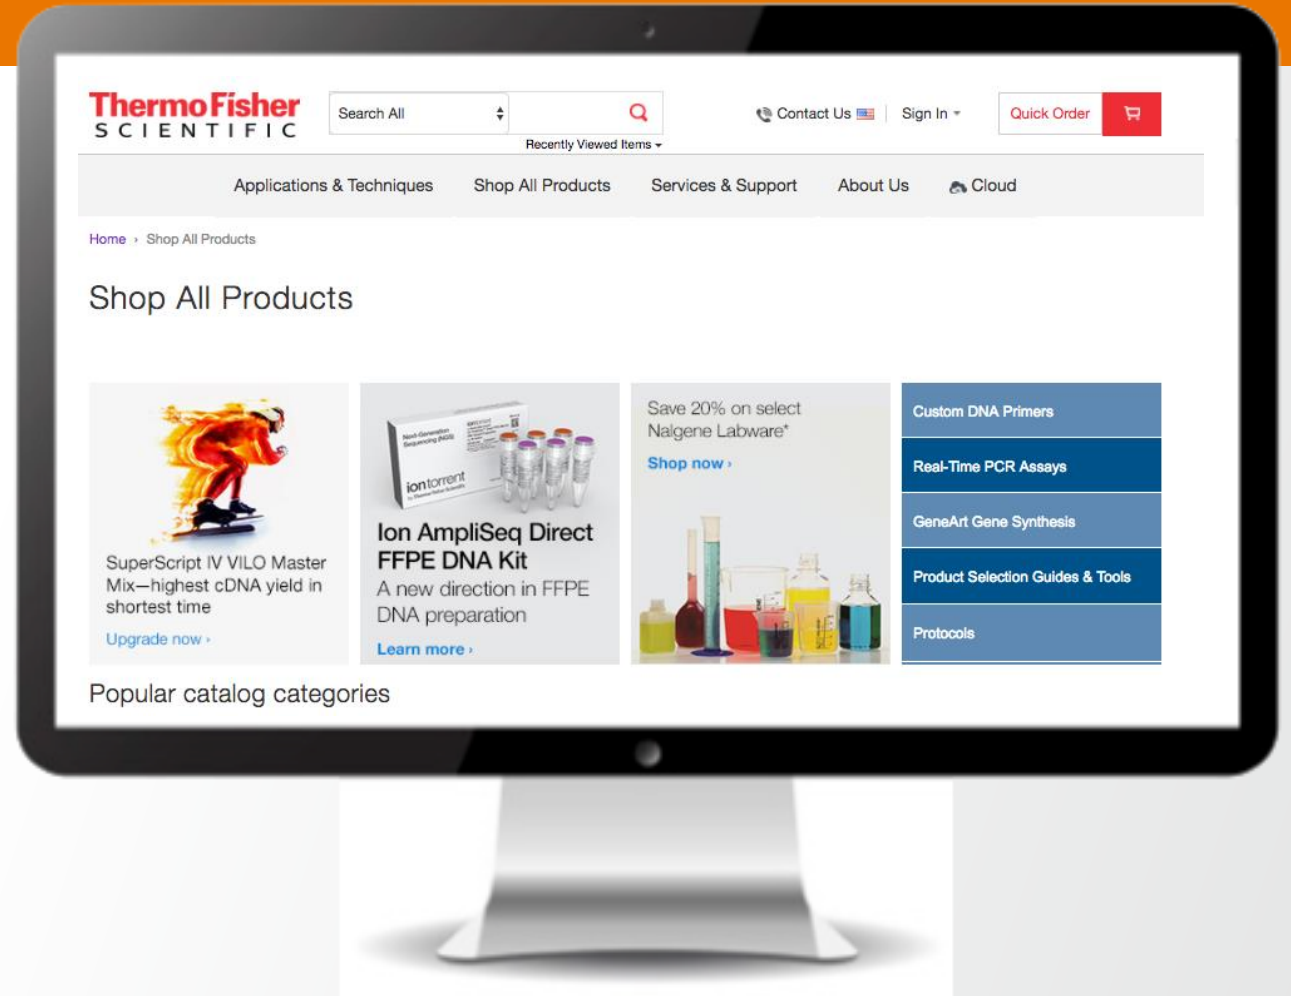

The value of thermofisher.com

Find the right products quickly and easily

The B2C experience is available to our B2B customers

- **Guided search tools** help customers narrow the options
- **Configurators** help ensure that product results meet the scientific requirements
- A **connected account** gives customers access to the eCatalog, web-based Punchout, and full integration with eInvoicing
- **Support centers** contain a wealth of useful resources and answers to frequently asked questions
- **Learning centers** contain a library of educational assets, including application notes, handbooks and sourcebooks, webinars, white papers, how-to videos, case studies, scientific posters, product selection guides, and more

Punchout with search for Antibodies

The screenshot shows a web browser window with the URL `solutions.sciquest.com/apps/Router/PunchoutFrameSet?ReturnUrl=%2Fapps%2FRouter%2FHome&supplierid=1376&punchout=1584987980546`. The browser's address bar and tabs are visible at the top. The page content includes the ThermoFisher Scientific logo, navigation links for 'Popular', 'Applications & Techniques', 'Shop All Products', 'Services', and 'Support'. A search bar is present with the following fields: 'Primary Antibodies' (dropdown), 'Target of Interest' (text input containing 'p53'), 'Application' (dropdown), and 'Target Species' (dropdown). A search button with a magnifying glass icon is to the right of the search bar. Below the search bar, a red banner reads: 'Thermo Fisher Scientific is actively responding to the current coronavirus SARS-CoV-2 outbreak. Learn more >'. The main content area features a large banner with the title 'Antibodies' and a background image of cells. The banner text says: 'Use the search bar above to easily find thousands of Invitrogen primary and secondary antibodies validated and cited for flow cytometry, IHC/IF/ICC, western blotting, ELISA and other applications.' Below this text are four cartoon antibody characters labeled 'HRP Secondary', 'Alexa Fluor Secondary', 'Primary Conjugated', and 'Primary'. Below the banner is a section titled 'Start saying goodbye to foam and hello to new, cooler packaging' with a sub-headline 'Thermo Fisher Scientific has redesigned how we ship antibodies—our 100% recyclable paper coolers help reduce our environmental impact.' and a link 'Learn about recyclable coolers >'. At the bottom, there is a section 'Learn about our antibody products' with four icons: 'Primary Antibodies', 'Secondary Antibodies', 'Isotype Controls', and 'ELISA Kits'. The bottom of the page shows a partial view of a carousel with the text 'Additional products & services'.

The screenshot shows a web browser window displaying a shopping cart page for ThermoFisher. The browser's address bar shows the URL: `solutions.sciquest.com/apps/Router/SimpleCart?ReqId=131016114&tmstamp=1584987624908`. The page features a dark sidebar on the left with navigation options: Home, Shop, Orders, and Reporting. The main content area is titled "Shopping Cart for Buyer From Life Technologies" and includes a "Name this cart:" input field. A summary box in the top right corner displays "2 Item(s) for a total of 94.45 USD", with a subtotal of 94.45 USD and estimated tax, shipping & handling of 0.00 USD. A "Proceed to Checkout" button is visible. Below the summary, there are links for "Continue Shopping", "Help", "Empty Cart", "Create New Cart", and a "Perform an action on (0 items selected)" dropdown menu. The cart items are listed in a table with columns for Product Description, Unit Price, Quantity, and Total. The first item is "SILAC DMEM Flex Media, no glucose, no phenol red" with a unit price of 68.50 and a quantity of 1, totaling 68.50. The second item is "Transportation and Handling Charges" with a unit price of 25.95 and a quantity of 1, totaling 25.95. The "Supplier subtotal" is 94.45 USD. A "Proceed to Checkout" button is also present at the bottom right of the cart items section.
