

Technical Data Sheet DeviceLink™ Connect Remote Monitoring Solution Kits

Thermo Fisher Scientific, Asheville, North Carolina

	Catalog Number
Specifications	DLCKTULTS101 DLCKTLRFZ101 DLCKTCO2l101 DLCKTCO2l102
	Application and Operating Conditions
Kit Contents	1x DeviceLink Connect mote (PN: DLCPTMOTE001) 1x PoE power supply adapter and PoE cable (PN: DLCPTPWRC001) 1x USB commissioner dongle (PN: DLCSWCOMM001) 1x Serial/USB cable (PN: Kit dependent) 1x Vire cabling/mounting kit (PN: DLCPTMONT001)
Application	Wireless monitoring solution for laboratory equipment utilizing the Thermo Connect cloud environment for 24/7 remote monitoring and notifications. Direct connection to equipment via serial/USB cable and/or independent sensors
Application Environment	Non-corrosive, non-flammable, non-explosive, good air ventilation
Ambient Operating Temperature	Temperature range for exposure of the mote (based on internal component design) Operating temperature range: 0°C to +45°C Operating humidity range: 0% to 95% RH, non-condensing
Indoor/Outdoor Usage	Indoor use only
Device Mounting	Device can be mounted to any flat surface. It is recommended to mount to the top of the instrument if possible
Serial Based Connections	DeviceLink Connect is intended for a 1-to-1 connection with an instrument. Only one serial port based connection per DeviceLink Connect. (Independent sensors can be used in tandem with a serial based connection on a single DeviceLink Connect.)
	Power Ratings and Specifications
Power Adapter Model	POE16R-1AFG-R
Power Adapter Rating/Specifications	DC voltage: 56VDC; Load: 0A (min) / 0.275A (max) Regulation Line/Load: 4% Minimum supply power: 15.4W The power supply must conform to the PoE (Power over Ethernet) IEEE802.3af standard
Power Adapter Wire Length	14 ft (4.27m)
POE Wall Adapter Dimensions	3.15" x 1.77" x 1.29" (80 mm x 45 mm x 33 mm) (LxWxH)
POE Wall Adapter Mass	3.35 oz (95 g)
Backup Battery	2600mAH, 3.6V Rechargeable Li-ion battery providing up to 3hrs of backup power during continuous operation
	Networking Requirements
Connection Type	Wi-Fi or Ethernet (LAN) connection
Supported Wi-Fi Protocols	WPA Enterprise (802.1x support); WPA2-PSK
Wi-Fi Bands and Frequency	Wi-Fi (802.11n/ac) by default; 2.4GHz and 5.0GHz ISM band operation
Hosting Protocols	
Required Ports	DHCP and DNS; NTP local or externally sourced. Device transmits via HTTP(S) periodically per customer configuration. Ports 80 (HTTP) or Port 443 (HTTPS) full access to api.traxxekg.com.
Required Ports	DHCP and DNS; NTP local or externally sourced. Device transmits via HTTP(S) periodically per customer configuration. Ports 80 (HTTP) or Port 443 (HTTPS) full access to api.traxxekg.com. An explicit HTTP proxy is configurable.
·	DHCP and DNS; NTP local or externally sourced. Device transmits via HTTP(S) periodically per customer configuration. Ports 80 (HTTP) or Port 443 (HTTPS) full access to api.traxxekg.com. An explicit HTTP proxy is configurable. Internet Explorer™ (10 and later), Google Chrome™ (25 and later), Mozilla Firefox™ (16 and later), Apple Safari™ (7 and later)
Required Ports Supported Web Application Browsers	DHCP and DNS; NTP local or externally sourced. Device transmits via HTTP(S) periodically per customer configuration. Ports 80 (HTTP) or Port 443 (HTTPS) full access to api.traxxekg.com. An explicit HTTP proxy is configurable. Internet Explorer™ (10 and later), Google Chrome™ (25 and later), Mozilla Firefox™ (16 and later), Apple Safari™ (7 and later) Mote Hardware Design and Connection Ports
Required Ports	DHCP and DNS; NTP local or externally sourced. Device transmits via HTTP(S) periodically per customer configuration. Ports 80 (HTTP) or Port 443 (HTTPS) full access to api.traxxekg.com. An explicit HTTP proxy is configurable. Internet Explorer™ (10 and later), Google Chrome™ (25 and later), Mozilla Firefox™ (16 and later), Apple Safari™ (7 and later) Mote Hardware Design and Connection Ports Raspberry Pi 3B+ module LED Indicators (3bi-color red/green): Power/Status, Network, and Sensor
Required Ports Supported Web Application Browsers	DHCP and DNS; NTP local or externally sourced. Device transmits via HTTP(S) periodically per customer configuration. Ports 80 (HTTP) or Port 443 (HTTPS) full access to api.traxxekg.com. An explicit HTTP proxy is configurable. Internet Explorer™ (10 and later), Google Chrome™ (25 and later), Mozilla Firefox™ (16 and later), Apple Safari™ (7 and later) Mote Hardware Design and Connection Ports Raspberry Pi 3B+ module LED Indicators (3bi-color red/green): Power/Status, Network, and Sensor Action Button: Manually send sensor data to mote Power Switch: Power mote On/Off
Required Ports Supported Web Application Browsers Main Contoller Indicators and Buttons LAN Ports	DHCP and DNS; NTP local or externally sourced. Device transmits via HTTP(S) periodically per customer configuration. Ports 80 (HTTP) or Port 443 (HTTPS) full access to api.traxxekg.com. An explicit HTTP proxy is configurable. Internet Explorer™ (10 and later), Google Chrome™ (25 and later), Mozilla Firefox™ (16 and later), Apple Safari™ (7 and later) Mote Hardware Design and Connection Ports Raspberry Pi 3B+ module LED Indicators (3bi-color red/green): Power/Status, Network, and Sensor Action Button: Manually send sensor data to mote Power Switch: Power mote On/Off LAN (Label: LAN): 10/100 Ethernet (Used for device commissioning only) LAN (Label: POE LAN): 10/100 Ethernet with PoE (used for device power and LAN network connection)
Required Ports Supported Web Application Browsers Main Contoller Indicators and Buttons LAN Ports USB Ports	DHCP and DNS; NTP local or externally sourced. Device transmits via HTTP(S) periodically per customer configuration. Ports 80 (HTTP) or Port 443 (HTTPS) full access to api.traxxekg.com. An explicit HTTP proxy is configurable. Internet Explorer™ (10 and later), Google Chrome™ (25 and later), Mozilla Firefox™ (16 and later), Apple Safari™ (7 and later) Mote Hardware Design and Connection Ports Raspberry Pi 3B+ module LED Indicators (3bi-color red/green): Power/Status, Network, and Sensor Action Button: Manually send sensor data to mote Power Switch: Power mote On/Off LAN (Label: LAN): 10/100 Ethernet (Used for device commissioning only) LAN (Label: POE LAN): 10/100 Ethernet with PoE (used for device power and LAN network connection) 4x USB ports for sensor and cable connection
Required Ports Supported Web Application Browsers Main Contoller Indicators and Buttons LAN Ports USB Ports RS485/232 Port	DHCP and DNS; NTP local or externally sourced. Device transmits via HTTP(S) periodically per customer configuration. Ports 80 (HTTP) or Port 443 (HTTPS) full access to api.traxxekg.com. An explicit HTTP proxy is configurable. Internet Explorer™ (10 and later), Google Chrome™ (25 and later), Mozilla Firefox™ (16 and later), Apple Safari™ (7 and later) Mote Hardware Design and Connection Ports Raspberry Pi 3B+ module LED Indicators (3bi-color red/green): Power/Status, Network, and Sensor Action Button: Manually send sensor data to mote Power Switch: Power mote On/Off LAN (Label: LAN): 10/100 Ethernet (Used for device commissioning only) LAN (Label: POE LAN): 10/100 Ethernet with PoE (used for device power and LAN network connection) 4x USB ports for sensor and cable connection
Required Ports Supported Web Application Browsers Main Contoller Indicators and Buttons LAN Ports USB Ports RS485/232 Port Dimensions	DHCP and DNS; NTP local or externally sourced. Device transmits via HTTP(S) periodically per customer configuration. Ports 80 (HTTP) or Port 443 (HTTPS) full access to api.traxxekg.com. An explicit HTTP proxy is configurable. Internet Explorer™ (10 and later), Google Chrome™ (25 and later), Mozilla Firefox™ (16 and later), Apple Safari™ (7 and later) Mote Hardware Design and Connection Ports Raspberry Pi 3B+ module LED Indicators (3bi-color red/green): Power/Status, Network, and Sensor Action Button: Manually send sensor data to mote Power Switch: Power mote On/Off LAN (Label: LAN): 10/100 Ethernet (Used for device commissioning only) LAN (Label: POE LAN): 10/100 Ethernet with PoE (used for device power and LAN network connection) 4x USB ports for sensor and cable connection 1x port for digital inputs (door switches and some sensors) 4.82" x 3.78" x 1.50" (122 mm x 96 mm x 38 mm) (L x W x H)
Required Ports Supported Web Application Browsers Main Contoller Indicators and Buttons LAN Ports USB Ports RS485/232 Port	DHCP and DNS; NTP local or externally sourced. Device transmits via HTTP(S) periodically per customer configuration. Ports 80 (HTTP) or Port 443 (HTTPS) full access to api.traxxekg.com. An explicit HTTP proxy is configurable. Internet Explorer™ (10 and later), Google Chrome™ (25 and later), Mozilla Firefox™ (16 and later), Apple Safari™ (7 and later) Mote Hardware Design and Connection Ports Raspberry Pi 3B+ module LED Indicators (3bi-color red/green): Power/Status, Network, and Sensor Action Button: Manually send sensor data to mote Power Switch: Power mote On/Off LAN (Label: LAN): 10/100 Ethernet (Used for device commissioning only) LAN (Label: POE LAN): 10/100 Ethernet with PoE (used for device power and LAN network connection) 4x USB ports for sensor and cable connection 1x port for digital inputs (door switches and some sensors) 4.82" x 3.78" x 1.50" (122 mm x 96 mm x 38 mm) (L x W x H) 10.4 oz (295 g)
Required Ports Supported Web Application Browsers Main Contoller Indicators and Buttons LAN Ports USB Ports RS485/232 Port Dimensions	DHCP and DNS; NTP local or externally sourced. Device transmits via HTTP(S) periodically per customer configuration. Ports 80 (HTTP) or Port 443 (HTTPS) full access to api.traxxekg.com. An explicit HTTP proxy is configurable. Internet Explorer™ (10 and later), Google Chrome™ (25 and later), Mozilla Firefox™ (16 and later), Apple Safari™ (7 and later) Mote Hardware Design and Connection Ports Raspberry Pi 3B+ module LED Indicators (3bi-color red/green): Power/Status, Network, and Sensor Action Button: Manually send sensor data to mote Power Switch: Power mote On/Off LAN (Label: LAN): 10/100 Ethernet (Used for device commissioning only) LAN (Label: POE LAN): 10/100 Ethernet with PoE (used for device power and LAN network connection) 4x USB ports for sensor and cable connection 1x port for digital inputs (door switches and some sensors) 4.82" x 3.78" x 1.50" (122 mm x 96 mm x 38 mm) (L x W x H)
Required Ports Supported Web Application Browsers Main Contoller Indicators and Buttons LAN Ports USB Ports RS485/232 Port Dimensions Mass	DHCP and DNS; NTP local or externally sourced. Device transmits via HTTP(S) periodically per customer configuration. Ports 80 (HTTP) or Port 443 (HTTPS) full access to api.traxxekg.com. An explicit HTTP proxy is configurable. Internet Explorer™ (10 and later), Google Chrome™ (25 and later), Mozilla Firefor™ (16 and later), Apple Safari™ (7 and later) Mote Hardware Design and Connection Ports Raspberry Pi 3B+ module LED Indicators (3bi-color red/green): Power/Status, Network, and Sensor Action Button: Manually send sensor data to mote Power Switch: Power mote On/Off LAN (Label: LAN): 10/100 Ethernet (Used for device commissioning only) LAN (Label: POE LAN): 10/100 Ethernet with PoE (used for device power and LAN network connection) 4x USB ports for sensor and cable connection 1x port for digital inputs (door switches and some sensors) 4.82" x 3.78" x 1.50" (122 mm x 96 mm x 38 mm) (L x W x H) 10.4 oz (295 g) Datalogging, Alarms, and Notifications
Required Ports Supported Web Application Browsers Main Contoller Indicators and Buttons LAN Ports USB Ports RS485/232 Port Dimensions Mass Device Storage	DHCP and DNS; NTP local or externally sourced. Device transmits via HTTP(S) periodically per customer configuration. Ports 80 (HTTP) or Port 443 (HTTPS) full access to api.traxxekg.com. An explicit HTTP proxy is configurable. Internal datalogging capacity during a network outage depends on the number of connected sensors and the frequency of data transmission from those sensors.
